

James Valner is a consultant within the Navigation team at Helios. He has undertaken studies in the aviation and maritime navigation domains and has been closely involved with the GIANT project investigating the use of EGNOS for helicopter approaches in the North Sea on behalf of the UK CAA, including the procedure design and safety assessment phases.

Steve Leighton is a consultant and Head of the Navigation team at Helios. His work is primarily focussed on the commercial and technical aspects of navigation systems – an area that he has been working in for the past 14 years. He is currently working in the maritime and aviation domains supporting the implementation of new navigation technology and applications.
