

**Visit UrsaNav at the 38th
ILA Convention &
Technical Symposium**

**October 13-15, 2009
Portland, Maine**

Visit UrsaNav! Booth 201

UrsaNav is the exclusive global distributor for **Nautel** and **Symmetricom** eLoran products and are recognized worldwide as the industry leader in integrating eLoran solutions. We can deliver a more capable and flexible eLoran solution, with exceptional associated reductions in installation, maintenance, infrastructure, and follow-on support, all at a tremendous cost savings to the service provider.

Nautel is a global leader in the design, manufacture, sales and support of high power Radio Frequency ("RF") products for AM and FM broadcast, navigation, industrial and space-based applications. Their NL series eLoran transmitters are the smallest, most efficient, cost-effective eLoran transmitters on the market.

Symmetricom is the world leader in generation, synchronization and distribution of precise time and frequency signals.

BearBuzz...Inc. Magazine ranked UrsaNav as the 8th fastest growing company in the Engineering division and the 807th fastest growing company overall for 2009.

**UrsaNav to Exhibit at the
2009 ILA Convention &
Technical Symposium**

The annual meeting of the **International Loran Association** will take place in Portland, Maine on October 13 -15. UrsaNav will be exhibiting at the corresponding **38th ILA Convention and Technical Symposium**.

Our core capabilities include providing GPS-based and non GPS-based PNT&D (Data) solutions for legacy transformation, irregular warfare, interference-enabled crime fighting, and counterinsurgency operations. Alternative PNT&D solutions using eLoran, INS, and 3D sonar are necessary components of mitigating GPS vulnerabilities. UrsaNav provides multi-modal PNT&D solutions – including Loran and eLoran – to the world. Join us at the upcoming ILA Annual Meeting and learn more about these ongoing initiatives.

UrsaNav is a founding member of the **eLoran Industry Working Group** (eLIWG).

UrsaNav Exhibit Highlights

We invite you to stop by the UrsaNav booth, #201 near Salon B, showcasing our latest products and services. Visit with our engineering staff and see our featured products hands on.

**UrsaNav & Nautel
Co-host Event Reception**

Join us and our partners at Nautel Wednesday evening and try our signature drink created just for the event called, *Bearly Goosed!*
